- Are you diabetic? Yes ☐ No ☐ • Are you/could you be pregnant? Yes ☐ No ☒

New or continued use of certain medications or agents increases the possibility of a reaction. Certain products can make the skin more sensitive. Thin, sensitive skin is more vulnerable to lifting and sensitivity during waxing. Individuals do react differently to medications and sometimes waxing can be done if proper test patching is completed. We encourage test patching an area, if you are concerned, prior to waxing. Please inform your cerologist if you have begun taking any new medications since your last visit

CONSENT:

I hereby request and grant permission to Waxing the City to administer waxing services and I voluntarily agree to be treated by a licensed esthetician. I confirm to the best of my knowledge that the information I have provided is accurate and complete, and I have received general information about the service I am seeking. I have not withheld information that may be relevant to the services or the results thereof. I am aware that there are often inherent risks associated with waxing and tinting procedures and the services I am about to receive could have unfavorable and uncomfortable results, including but not limited to: allergic reaction, irritation, burning, redness, scarring, soreness, etc. By signing below, I freely assume these risks and I agree that I will not hold the Waxing the City salon or its owners or any of its employees responsible should there be any unfavorable outcome or result. I will inform Waxing the City of any complications or concerns I may have as soon as they occur, and any changes to the information in this form. I understand I should refrain from tanning and/or direct sun exposure within 24-48 hours of waxing. I also understand that I should not have Micro-dermabrasion or "peels" 3 days pre- or post-

waxing. I have read, understand, and agree to the above provisions.
